Shashank Ramesh Kumar

Software Engineer | Full Stack Development & Test Automation

Dallas, TX | rkshashank21@gmail.com | (551) 344-7232

PROFESSIONAL SUMMARY

Software engineer with experience building Java/Spring Boot and Node.js services, React/TypeScript applications, and automated test coverage. Develops REST and GraphQL integrations and supports reliable delivery with AWS, Docker, GitHub Actions, and CI/CD.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript
Backend & APIs: Spring Boot, Node.js, REST APIs, GraphQL
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Databases: PostgreSQL, MongoDB, MySQL, DynamoDB
Cloud & DevOps: AWS (Lambda, S3, EC2), Docker, GitHub Actions, Jenkins, Git, CI/CD
Testing: Robot Framework, Selenium WebDriver, UI, functional, regression, and end-to-end testing

PROFESSIONAL EXPERIENCE

AT&T | Automation Engineer — Dec 2025–Present

- Develop reusable Robot Framework keywords and Python test helpers for Selenium-based web automation.
- Automate new-feature and regression coverage for customer rate-plan and feature-change workflows.
- Support scheduled production deployment nights with release validation, defect triage, and post-deployment checks.
- Investigate UI and environment failures with developers and QA, separating product defects from test instability.
- Partner with business stakeholders to identify release risks and reduce repeated manual validation.

CDW | Full Stack Developer — Aug 2024–Nov 2025

- Built Spring Boot and Node.js microservices that supported internal platforms and service orchestration.
- Delivered reusable React and TypeScript dashboard components for operational and administrative workflows.
- Connected front-end features to REST and GraphQL APIs for consistent data flow across distributed services.
- Automated build and deployment workflows with GitHub Actions, improving release consistency across environments.
- Worked across UI, API, and deployment layers to troubleshoot integration issues and maintain production features.

Trigent Software, India | Software Engineer — Oct 2021–Jul 2022

- Developed Java and Spring Boot services backed by PostgreSQL, emphasizing data consistency and maintainability.
- Modernized legacy user workflows with Ember.js and React.js to simplify ongoing front-end development.
- Containerized services with Docker and maintained Jenkins pipelines for repeatable builds and deployments.
- Resolved issues across application and deployment layers to support stable releases in multiple environments.

EDUCATION

Stevens Institute of Technology, New Jersey — May 2024
Master of Science in Computer Software Engineering

Vidya Vardhaka College of Engineering, Mysore — Jun 2021
Bachelor of Engineering in Computer Science and Engineering
